Revitol is our top choice among **anti-wrinkle** products. It is very effective, works quickly, has safe ingredients, and is reasonably priced.

Clients reported much younger, smoother and more radiant looking skin after just a few weeks. This is likely due to the concentration of proven wrinkle-reducing ingredients found in the formula. Many people experienced very impressive results, faster than they expected.

Testimonials:

Donna, Los Angeles:

Let's face it ladies, we can't always look like we did we were 21! But hey, we can sure try, right? On my quest to find the fountain of youth, I have stumbled across many products in the higher end cosmetic counter areas that I had so nonchalantly passed by in my younger days. I figured now that I am in my mid-thirties it was about time to start taking skincare a little more seriously. One of my many "finds" along this quest has been Revitol. It is an anti-wrinkle and firming treatment that is to die for. After using a trial package of this product, I was so impressed that I went out and bought the full package with a free month supply.

Jenny, Vancouver Canada:

I was going to have a Face lift surgery and I'm glad I didn't. I chose the Revitol Solution instead and I couldn't be happier. I have been taking your product for over 3 months now and I can see the wrinkles disappearing from my face. Your Revitol Solution is amazing!

Eric, Texas USA:

I have been taking your product for over 3 months now and I can see the wrinkles disappearing from my face. I have a lot of wrinkles on my forehead and they never go away. I have tried over 10 different products to try to get rid of those wrinkles and nothing worked until I tried your Revitol product. Your Revitol Solution has completely removed the wrinkles from my forehead. Thank you guys for this great product.

Sarah, Sydney Australia:

After two weeks of taking your product I noticed my face looking younger and healthier. I was getting complements from my girlfriends asking me what I was doing. Thank you so much for your incredible products.

Lisa, Chicago USA:

Your Revitol Solution has completely changed my life in just a few months. Many of the wrinkles on my face have disappeared and now I feel more confident when I'm out in public. Before, I was really shy in approaching people because of all the wrinkles I had on my face. Thank you Revitol.

Tanya, London UK:

After two weeks of taking your product I noticed my face looking younger and healthier. I was getting compliments from my girlfriends asking me what I was doing. So then I told them about your product and now you have 4 new customers buying your products. Thank you so much for your Revitol Solution.

David, New York USA:

I have been using the Revitol Solution for less than 3 weeks and I have already noticed difference. The wrinkles around my eyes have disappeared. I have tried over 8 different types of products to get rid of my wrinkles around my eyes and your product is the only one that works. I'm going to place another order so I don't run out. This stuff is really great.

#2 - Avotone Anti Wrinkle Cream

Avotone **anti wrinkle cream** rated excellent in all categories. A small percentage of people noticed that their skin started drying out after using it for a few weeks, however using some moisturizer solved the problem. Of course, not all products work for all people. You have to try them out first. That's why it's a good idea to buy a product that has a long guarantee - long enough for you to truly try and see if the product works for you.

The Avotone product has been mentioned in high regard many times in many leading magazines as can be seen at their website below. Also, like Revitol, the guarantee is very impressive compared to anything else on the market. Obviously, they believe in their product. That's a good thing, by the way.

Clinically Proven - the active ingredient in Avotone, Acetyl Hexapeptide-3 (Argireline), has been proven to reduce the depth of the wrinkles in the face caused by the contraction of the muscles by facial expression, especially around the eyes and the forehead. By relaxing these muscles Avotone can be an effective alternative to cosmetic surgery and injections without painful side effects.

The proprietary formulation of Avotone uses a 10% solution of Acetyl Hexapeptide-3 (Argireline) along with advanced collagen builders and natural avocado oil moisturizers to both reduce the appearance of fine lines and wrinkles and give you what some customers feel is the best anti wrinkle cream on the market.

Avotone is a safe, non-invasive alternative, what some people call "a non surgical face lift".

Testimonials :

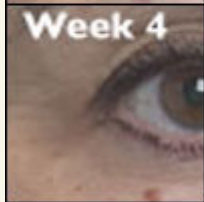

Lori - 60

After using Avotone for about a month, I noticed my wrinkles were shrinking a little. But, a friend commented at lunch how much of a difference she actually noticed and wanted to know what my secret was. I told her that I have been using Avotone Wrinkle Relaxant Face Cream. I didn't realize how much of a distinction it really made, until I started receiving even more comments from my friends and family. Thanks Avotone!

Nancy - 59

I am outside a lot with our horses. After a week of using Avotone my 30 yr old daughter said "Mom your age spots are gone!" I have noticed my facial lines have softened and I am so happy to be using Avotone Face Cream. This year I will turn 60 and I feel so much younger in my face. Thank you again for this wonderful, easy to use product.

**Pat - 50**

Like most women, I have been concerned about the crow's feet around my eyes and my wrinkles getting deeper. I have used Vaseline for years, but because it's so oily I could only apply it at night. After using Avotone Wrinkle Relaxant Cream I found that my crow's feet began to disappear and my wrinkles started to fade. I found that I could also apply it in the morning and still put my make up on. My husband has noticed the change and is now using it himself. Thank you Avotone!

**Brooke - 26**

Playing sports in the sun throughout my high school years had really damaged my skin. I had been using Avotone Face Cream for only a couple of weeks when people began to comment on how healthy my skin looked. I knew it was the Avotone Face Cream that was giving me such a smooth look. I now use it regularly to keep that younger looking skin and to bring back what the sun had started to take away from me.

**Robin - 49**

I am a "soon to be" 50 year old woman, who started using the Avotone product a few weeks ago. I was absolutely amazed to see such outstanding results!!! The Avotone product allows me to happily look in the mirror and view a more youthful looking me! Avotone wrinkle cream gets rave reviews in my book.

Kathy - 45

Just wanted to let you know how much I love your product. Yes I was skeptical because everyone promises great results. I do take care of my skin and I am always looking for products that my skin will tolerate. I am highly allergic and don't like heavy or oily products that give my skin a shiny or oily appearance. I do however like to look refreshed and have a glow to my skin. I was so happy with the results of this product and I will continue to order it. The light non oily texture allows me to use all of my regular cosmetics without that heavy layered feeling. I feel my skin looks healthier, it is smoother looking and soft to the touch.

Stacey - 54

After using Avotone for two weeks I found my skin was very smooth, soft and nearly wrinkle free. My husband says that I look like I'm 30 again! Thank you Avotone, you have a customer for life!!

Janice - 34

I had some results from StriVectin-SD before, but the affects of Avotone wrinkle cream were amazing! I noticed a reduction in the appearance of my wrinkles after only one week. Their customer service was extremely helpful, and the product helped soften and moisturize my skin.

Ron - 38

I first tried the Avotone that my wife had ordered after getting a comment about being the old man in the office. The next morning my wife nearly dropped her makeup brush when she saw my face. I ordered my own bottle of Avotone wrinkle cream since my wife refused to give up hers.

Michelle - 45

I have been working out a lot at my local gym, but I always felt self conscious around the younger women who are there. After using Avotone for a few weeks, I feel less intimidated by them, and more like competition for them.

Kathy - 31

I work at a skin care product counter at a big department store so I try every wrinkle cream I can get my hands on but never got the results I wanted. I tried Avotone after seeing it on Soap Talk and I have to say even then I was skeptical. But after a few weeks people started commenting on how good I looked. Now when my clients ask me for skin care tips I tell them about Avotone.

JoEllen - 43

I have been using the Avotone Wrinkle Relaxant Face Cream since April both day and night. The cream is easily absorbed into my skin and leaves it feeling very soft and smooth. Often I have problems with my skin when using a new products due to my sensitive skin, but have not had a problem with Avotone Face Creams. I do notice that lines are less visible. This is a great product! Just add a sunscreen to it. Thank you.

Highly Recommended.

#3 - OHT Peptide 3 Anti-Wrinkle Skin Care Treatment

OHT Peptide 3 anti wrinkle skin care treatment is a well tested and very effective anti-wrinkle treatment. They only give a 30 day money back guarantee, instead of the 60 day guarantee that Revitol and Avotone provides, and that is why they are not ranked as high as the others.

Clinical trials indicated that Palmitoyl Oligopeptide-3 regenerated the skin's upper layers by stimulating collagen production, thickening the epidermis. Acetyl Hexapeptide-3 reduced wrinkles by disrupting the nerve signals sent to tense muscles below the dermis, relaxing them, smoothing the overlying skin. Also, Palmitoyl Tetrapeptide-3 suppresses the body's production of interleukins, the chemical messengers that trigger inflammation.

The scientists who developed this product used naturally occurring peptides. Peptides play a vital role in the skin's healing process. These protein molecules, found naturally in the body, send out signals when damaged skin is in need of repair. OHT Peptide-3 contains three patented peptides that target both upper and lower layers of the skin, reducing wrinkles and repairing stretch marks.

- **Palmitoyl Pentapeptide-3 (Ceramide Oligopeptide-3) is clinically proven to regenerate the skin's upper layers by stimulating collagen production and thickening the epidermis-not unlike the regeneration.**
- **Palmitoyl Tetrapeptide-3 is proven to suppress the body's production of interleukins, the chemical messengers that trigger inflammation.**
- **Acetyl Hexapeptide-3 is proven to reduce wrinkles by disrupting the nerve signals sent to tense muscle beneath the dermis-functionally relaxing them and smoothing the overlying skin.**

#4 - Royal Gold Anti Wrinkle Serum

Royal Gold Anti Wrinkle Serum is made by HMS Crown products and is an excellent wrinkle reducing skin care product. They offer an unusual 110% money back guarantee, so they obviously believe in their product or they wouldn't be able to make such an offer. The only thing we did not like was the organization of their website. It is not as clear and easy to navigate as some of the other Top 5 sites, but it's not too bad.

All HMS Crown products are dose cumulative, which means the longer you use them, the less you will need and the better your skin will look. Unlike many faddish cosmetics which freeze the skin and give only short temporary improvement, Royal Gold and all HMS Crown products are designed for long term, permanent improvement because they nourish the skin.

Royal Gold is a 100% natural wrinkle serum, packed full of vitamins, minerals, and micro-nutrients in a molecular configuration tiny enough to penetrate and pass through the epidermal layer of skin. Unlike most treatments which cannot penetrate the skin's surface, Royal Gold sends nutrients through the skin's outer layer and works from within to repair age damage by revitalizing and re-nourishing skin cells.

This exclusive secret formulation enables the body to replenish its own natural collagen and elastin resulting in healthy, youthful skin. Watch your lines and wrinkles gradually dissolve.

The company promises you will see a difference in minutes or return any unused portion for full refund. Royal Gold, used alone or in combination with Royal Beauty Anti-Aging Daily Moisturizer, blends beautifully with foundation and make-up.

Dear Terry,

I wanted to write and thank you for taking the time to call me last week and answer all my questions. You were more than kind. ..., but first I wanted to share with something with you: When I ever came home last night after a long hard day at work, and saw a package in my mailbox - I... I was so surprised (and thrilled) to open the package ... - the zit eraser couldn't have come at a better time!! With all the recent stress (and hot weather) - my skin looked like a checkerboard!! (As I told you before, I am acne-prone). I couldn't wait to try it!

*After just 24-hours, I noticed a remarkable difference - to my amazement, some of the blemishes were almost invisible and others were completely gone!!! I could see the healing that took place overnight! I couldn't be happier with your products. And it's comforting to know I am TAKING CARE and nourishing my skin with GOOD PRODUCTS, not just covering up problems. **My skin actually looks better without makeup now! I haven't been able to say that since I was 18! The Royal Gold (Serum)** is just that - like GOLD. A beautiful product that works and just priceless to me. You have a customer for life.*

I wanted to thank you from the bottom of my heart, both for your dedication to making superior products at an affordable price, and for your kindness and generosity. I'm not the type of person to write to companies or say things that aren't true, so I hope you don't think that I am being insincere ... because your products, and your website have so impressed me... I want to share what HMS Crown has done for me, with all my friends, family and their friends ...

Thank you again!

With Kindest Regards,

I have been a smoker for 53 years. Was an outdoor person. Never took care of my skin at all. So now my skin has completely collapsed. Went on a wrinkle quest, and after trying Royal Touch, Golden Elegance, Activor Skin, Neutrogena Visibly Firm, and Vita-K, and so on, none worked for me.

*I thought a face lift under the knife was my only way out. Then I found **Royal Gold Serum** from HMS Crown, Inc. Believe me, miracles do happen!! Within a day the wrinkles around my mouth started to disappear and my skin is firming up with a wonderful glow.*

I have found my fountain of youth and will continue to use these products.

It is everything the company says and more.

God Bless You

Hello, I spoke to you last weekend. I recently tried your non-surgical facelift and serum and like it a lot. The fine lines around my eyes are going away already after 3 applications. My good friend Karen told me she was going to order the kit also, she wanted to be sure I get credit for my free product.

Thanks

#5 - Kinerase Lotion and Cream

Kinerase Lotion works best for normal to oily skin types or for those who live in humid climates.

Choose **Kinerase Cream** for normal to dry skin types or for those who live in dry climates..

Regular use of Kinerase® has been shown to provide superior moisturization for sun damaged skin or skin recovering from dermatological procedures such as microdermabrasion or chemical peels. Kinerase is a great alternative for Retinoid-intolerant skin.

Erase wrinkles without burning, redness and peeling.

Kinerase contains kinetin (N6-furfuryladenine) to diminish the appearance of fine lines and wrinkle. Kinerase also improves skin texture, skin tone, and blotchiness in sun damaged skin. It gently moisturizes dry and sensitive or post-procedural skin.

Scientific studies reveal that this topical cream works as well as Renova and Retin-A without the side effects. Kinerase reduces wrinkles, signs of photoaging and roughness of the skin with virtually no side effects. Safe to use with makeup or sun exposure. Kinerase contains the nature-identical plant growth factor furfuryladenine, which retards the aging of plant cells as well as in vitro human skin fibroblasts.
